<p>Rest is the main subject of the article "The smarter way to unwind". The <del>auto</del> author mentions the opinion of the scientists of the past towards this activity and also gives information about the researches of rest in the modern world.</p> <p>In the past, rest was neglected scientifically as the men of science used to concentrate on the investigation of the human body and brain. Back to those times, sleeping or lying in bed were often considered to be the best means for recovery, because they allowed the body to spend all the energy on the immune system. However, a substantial change in science has occurred since then.</p> <p>According to the studies of the scientists of the modernity, a balance of rest and activity in a human's life is highly <del>int</del> necessary. There exist plenty of ways to relax: reading, walking in nature, daydreaming<sup>etc.</sup>. All those activities restore physical and mental health, thus, it is recommended to experience them regularly. Constant microbreaks during work are also a type of having rest that raises workers' efficiency.</p> <p>Personally, I appreciate the development of science considering the importance of</p>	Количество слов: <u>188</u>
