<p>There is no doubt that rest is vital for working, learning and supporting one's mental and physical health.</p>	Количество слов: 205	
<p>In the article given readers are introduced to studies about rest as well as to various ways to unwind.</p>	Критерии оценивания Балл	
<p>The first and the most popular opinion that has been reinforced by scientists of the past in particular, is that sleeping is the only way to rest. However, Claudia Hammond argues with this point of view saying that waking rest is essential and can take such forms as walking, bathing etc. Other health psychologists say microbreaks that microbreaks are necessary for working people. It is worth mentioning studies show that employees who take microbreaks tend to be more productive and show better results at work than their colleagues who are prone to long periods of focused work which they do not interrupt.</p>	Коммуникативная задача (0-10)	10
<p>Personally, I believe that while microbreaks may not be the best way to rest, they are necessary for people who want to show high performance either in their studies or at work as short periods of rest help to memorize and understand information better.</p>	Оформление	
<p>In conclusion, it goes without saying that rest, no matter which particular form it takes, should be incorporated in life of every person.</p>	Композиция (0-2)	2
